Number 1: Neuropsychology of face recognition (2)

M. Hübner, I. Rentschler, W. Encke
Hidden-face recognition: comparing foveal and extrafoveal performance 1

L. Christen, T. Landis, M. Regard
Left hemispheric functional compensation in prosopagnosia? A tachistoscopic study with unilaterally lesioned patients 9

C. A. Marzi, G. Tassinari, P. E. Tressoldi, C. Barry, A. Grabowska
Hemispheric asymmetry in face perception tasks of different cognitive requirement 15

C. Trevarthen
Facial expressions of emotion in mother-infant interaction 21

O.-J. Grüsser, T. Selke, B. Zynda
A developmental study of face recognition in children and adolescents 33

Regular contributions

J. Aschoff
On the perception of time during prolonged temporal isolation 41

M. Reiser, E. Lenz, H.-G. Bernstein, A. Dorn
Insulin-like immunoreactivity in human cerebrospinal-fluid is independent of insulin blood levels 53

Erratum 56

Number 2: Temporal organization of behavior (1)

Introduction

J. M. Fuster
Temporal organization of behavior 57

R. Granit
Comments on time in action and perception 61

M. A. Arbib
Schemas for the temporal organization of behaviour 63

D. Hary, G. P. Moore
Temporal tracking and synchronization strategies 73

J. Garcia, M. D. Holder
Time, space and value 81

Regular contributions

H. Braak, A. Bachmann
The percentage of projection neurons and interneurons in the human lateral geniculate nucleus 91

W. Skrandies
Human contrast sensitivity: regional retinal differences 97

J. N. Sanes, K.-H. Mauritz, M. C. Dalakas, E. V. Evarts
Motor control in humans with large-fiber sensory neuropathy 101

S. L. Levin
Trigger activation of the paradoxical salivatory response to atropine in the parasympathetically denervated human parotid gland 115

J. Zulley, S. S. Campbell
Napping behavior during 'spontaneous internal desynchronization': sleep remains in synchrony with body temperature 123

Number 3: Temporal organization of behavior (2)

D. H. Ingvar
"Memory of the future": an essay on the temporal organization of conscious awareness 127

B. Milner, M. Petrides, M. L. Smith
Frontal lobes and the temporal organization of memory 137

L. Deecke, H. H. Kornhuber, W. Lang, M. Lang, H. Schreiber
Timing function of the frontal cortex in sequential motor and learning tasks 143

P. E. Roland
Cortical organization of voluntary behavior in man 155

J. M. Fuster
The prefrontal cortex, mediator of cross-temporal contingencies 169

Regular contributions

C. J. Erkelens, H. Collewijn
Eye movements in relation to loss and regaining of fusion of disjunctively moving random-dot stereograms 181

A. A. Borbély, P. Mattmann, M. Loepfe, I. Strauch, D. Lehmann
Effect of benzodiazepine hypnotics on all-night sleep EEG spectra 189

L. Domenici, C. Trimarchi, M. Piccolino, A. Fiorentini, L. Maffei
Dopaminergic drugs improve human visual contrast sensitivity 195

Announcement 198

Number 4: Artificial intelligence and brain function (1)

Introduction

T. M. Caelli
Artificial intelligence and brain function 199

M. A. Arbib
Brain theory and cooperative computation 201

C. Koch, S. Ullman
Shifts in selective visual attention: towards the underlying neural circuitry 219

A. G. Barto
Learning by statistical cooperation of self-interested neuron-like computing elements 228

Regular contributions

J. Matheson, M. Hallett, A. Berardelli, R. Weinhaus, S. Inzucchi
Failure to confirm a correlation between electromyogram and final position 257

Announcement 256
